Rivers and Streams

Estuaries

# Land, Freshwater and Marine Biomes Collage

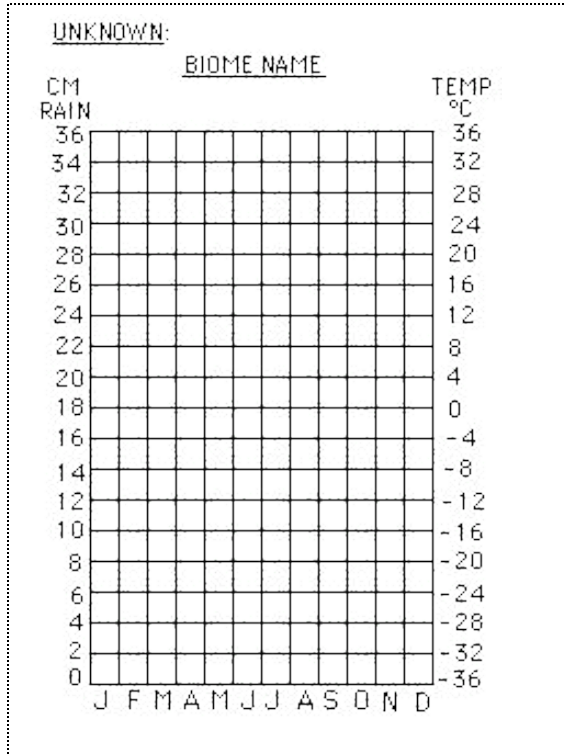

You will be creating a collage that involves 5 separate sections: One land biome, ponds & lakes, rivers & streams, estuaries, and marine biome zones. **Your assigned Land Biome is \_\_\_\_\_.**

**This assignment is due on \_\_\_\_\_.** You will be given the paper to complete the assignment, but you must follow the template provided on this sheet.

## YOUR LAND BIOME COLLAGE MUST INCLUDE:

- ✓ TITLE
- ✓ CLIMATOGRAM (USE THE ONE PROVIDED) →
- ✓ TYPE OF SOIL
- ✓ 2 TYPES OF PLANTS LIVING IN THE BIOME
- ✓ 2 TYPES OF ANIMALS LIVING IN THE BIOME
- ✓ 2 PLANT ADAPTATIONS
- ✓ 2 ANIMAL ADAPTATIONS
- ✓ MAP SHOWING LOCATION(S) OF YOUR BIOME

YOU MAY USE THE MAP BELOW AND COLOR FOR YOUR BIOME

FOLD 1/3 OF THE WAY FROM RIGHT EDGE

**NON-FRESHWATER-MARINE-BIOME**

1. You must **draw this outline** in this area of your paper.
2. **Color and label** the following marine zones: intertidal, Neritic, Open Ocean, and Benthic.
3. **Include the following** in the correct zones: sea grass, clams, crabs, snails, beaches, seaweed, sea turtles, colorful fish, dolphins, coral reef, whales, squid, thermal vents, glowing fish
